(By The Associated Press)
Wall Street, Feb. 14.

Trading on the Stock Exchange was superficial to the last degree, total sales being almost the lightest of any full session this year and the smallest, with one or two exceptions, since the middle of last year.

Operations were confined to a few groups of professional traders, that element reversing its moderate optimism of the previous day to the extent of renewing commitments on the short side.

The only noteworthy or unusual feature was the relative activity of Central Leather, dealing in that stock at an extreme advance of 2% points, overtaking the turnover in United States Steel, which invariably leads the list.

Overnight developments, particularly the situation in Cuba, found direct reflection in the course of sugar issues, Cuban-American Sugar making a gross decline of 6 points, while South Porto Rico, which may derive some benefits from the disturbances in Cuba, made an extreme gain of 12 points.

United States Steel ranged between 106% and 105%, closing at 105%, a net loss of one point. Related industrials were 1 to 2 points lower, with as much for metals, while shipping oils and utilities, particularly gas shares, were down 2 to almost 4 points.

Rails were under steady restraint, probably in consequence of the weakness of New Haven, which recorded the minimum price in its history at 37%, to the accompaniment of familiar rumors respecting the future of that property. Lowest quotations were made all around in the final hour, the movement being accelerated by reports of the sinking of an American merchantman in the European war zone.

Intimation of the early completion of negotiations for a French loan by our bankers were not confirmed, but it is understood that new commercial credits to French interests are under discussion.

Bonds were irregular, Anglo-French for making a new low price of 90% before recovering, while Paris 6 gained a point.

United States bonds were unchanged on call.
